

Christmas 1970  
Dear Alice and Maurice—

It is a long time since seeing you. Hope all has been well with you and the boys. Does not seem possible they are going to college. Wonderful that they are happy in their selections.

This has been an unhappy year for me and I will be glad when it is over. Bill and I are separating. Claims we were not getting along and sought greener fields. It is all so unjustifiable, impossible to believe and understand. Plan to remain here for awhile. Know it is a big undertaking for a woman alone, but will try. Come down some time after the holidays.

Hazel was here yesterday. Her eyes are becoming rapidly worse. Reading was her main pastime, so know she misses this tremendously. TV watching is also difficult for her.

Have been having our share of rain, but are not complaining. Wonderful for the garden. But in a sprinkler system along the side fence, but the rains postponed our putting it to a test.

Did not write the others of your family about Bill and I. Will ask that you give them the news.

Greetings of the  
Season

and best wishes

for the

NEW YEAR

All good wishes to you  
and the boys.

Love

Aunt Edna
