

Peda wrote and asked a million questions about coming down - so far I haven't answered but hope to real soon.

I am looking forward to your visit next year so don't disappoint me. We surely had a grand time - didn't we? Remember me to all my friends, and don't forget to send Mother her flowers. Be sure and ask all your friends & relations to save stamps for me.

Think I had been say good night until some other time. Write real soon!!

Love,

Sister Mary Clarine

P.S. Received your card today and feel much relieved to know you arrived home safely. We are all praying for you and Maurice.

April 2, 1937

Dear Alice and Maurice:

It doesn't seem possible you have been here and gone again. Alice, did I hear you crying as you left? I didn't. Well - after leaving you I went back to work and began to make up for lost time. We had five Easter babies but one died. Altogether we had fourteen babies and of course that meant we were all ladies of leisure.

Mother and I received your cards from Karlsbed (sp?). My but it must be wonderful there. I'm dying to see all the pictures. Believe it or not but I had a funny feeling that you would phone me. When Sister told me

One of my ex-patients gave me a nice basket of eggs.

Oh - yes, the day after Easter we had exams. My marks are as follows. - Anatomy 90 - Medical Diseases 93 - Procedures 90 - Materia Medica 88 - Pathology 56.
Not so bad and not so good!

This morning we all went to a movie and saw "Cloistered". Hope you both will have a chance to see it. We certainly enjoyed it.

Hope you will excuse this awful writing as it is the second time I have re-written it and am writing it in bed - as a result I'm half asleep. In case you don't know this is your birthday letter.
Happy Birthday to You!!!!

at first I couldn't imagine who it could be - but soon found out. Mother said, if you were near her she would spank both of you for spending your money like that. The Easter lilies looked lovely on the altar.

We three are still talking about the picnic, and I still have a nice red nose and it's peeling. How are your arms? all the sisters asked to be remembered to you.

Sort of lost track of you after leaving for L.A.

Received a letter from all members of the family but they didn't say anything about your having come home yet. I am getting worried - hope nothing happened.

Mum sent me a lovely box of Easter eggs - she never forgets me and my weakness.
